# Lucas Cardone

**Software Developer**

lucas.a.cardone@gmail.com • LinkedIn • Github

---

## Professional Profile

Software developer with over 3 years of experience in creating web applications using technologies such as React, TypeScript, and Material-UI. I have led projects that optimized key processes, achieving a 20% efficiency improvement in development teams. I have strong backend knowledge in Java, C#, Node.js, and SQL, and I am passionate about creating innovative solutions that add value. Committed to continuous learning to keep growing professionally.

---

## Skills

- React (TS y JS)
- Material-UI
- Python
- Java
- Springboot
- SQL
- C#
- .NET
- Git

---

## Profesional Experience

### Egg Cooperation
*Expert Mentor • Jan 2023 - Nov 2023*

- Assisted 500+ students daily in online networks, ensuring an effective learning experience.
- Led programming tutorials, facilitating the understanding of complex content.
- Detected and reported errors in guides, improving educational quality.
- Resolved software tickets in controlled environments, ensuring production stability.
- Collaborated in a team, adapting to changes and contributing to project success.

### Holmes Brewery
*Web Developer • May 2023 - Present*

- Designed a reservation system for breweries, improving customer experience.
- Collaborated in a team under agile methodologies for fast and organized deliveries.
- Integrated JWT, MercadoPago, and Google APIs, ensuring interoperability and security.
- Successfully deployed the application after extensive testing.
- Currently leading the expansion to a multi-restaurant reservation platform using React Native.

### Audens
*Desktop Developer • Jul 2022 - May 2023*

- Developed an application in Java and SQLite for managing payment receipts, optimizing administrative processes.
- Implemented continuous improvements that increased performance and functionality.
- Adjusted the application based on user feedback, improving usability and satisfaction.
- Provided technical support, ensuring continuous operations without interruptions.

### Puntos Club
Freelance Developer • May 2024 - Present

- Worked with technologies such as Symfony (PHP), Doctrine, MySQL, Git, and Angular for the development and maintenance of the website.
- Improved the user interface (UI) of the site, achieving a more intuitive and attractive experience for users.
- Fixed critical production bugs, ensuring the site's stability and functionality.
- Managed version control using Git and GitHub to ensure organized and efficient development.

---

## Education and Certifications

**Technical Degree in Programming**                                     **Jul 2022 - Jun 2024**
Universidad Tecnologica Nacional (UTN)

**Full Stack Web Programming**                                          **Sep 2021 - Oct 2022**
Egg Cooperation

**Oracle Next Education Program F2 T3**                                  **Sep 2022 - Dec 2022**
Alura Latam
